SERIE ANiMALS SERIES

This playground equipment is designed to give kids an energetic and enjoyable experience, encouraging them to stay active while playing outdoors. Shaped like a bull, children can climb on and rock back and forth, helping them build balance and fine motor skills in a fun way.

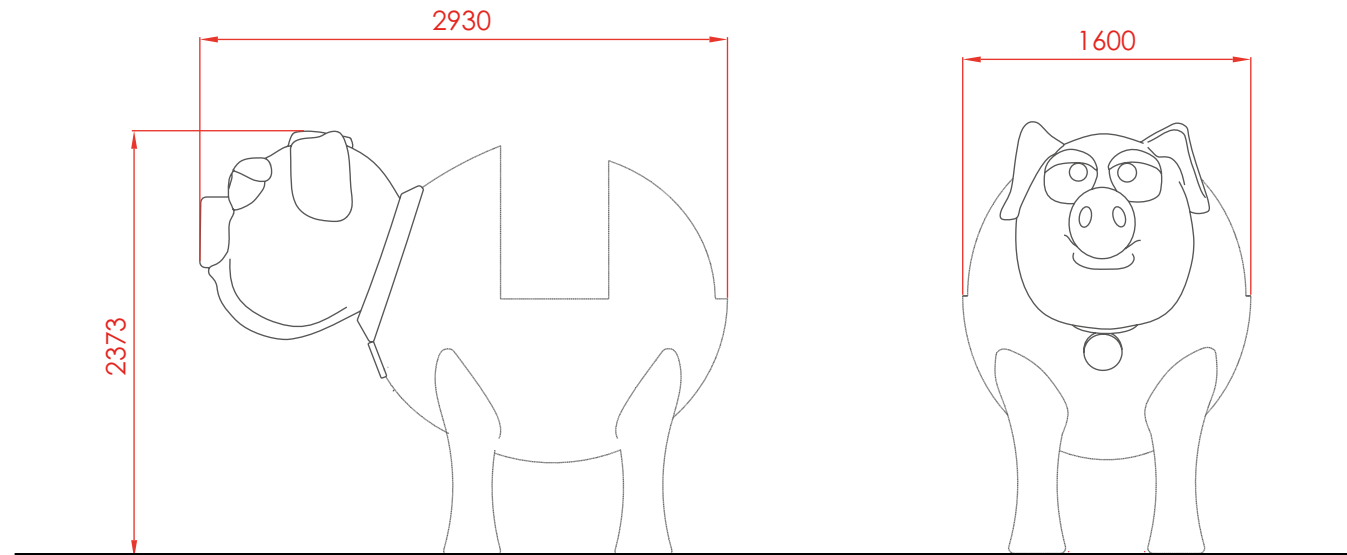

This play structure is built with tough, safe materials like galvanized steel and high-quality fiberglass, ensuring long-lasting durability and reliable safety for kids. Rounded edges help prevent any injuries, and its bright, eye-catching design makes playtime even more exciting.

This playground equipment is a great way to inspire kids to be physically active, making exercise enjoyable and natural. It helps them boost strength, agility, and endurance, all while developing essential motor skills as they play. Perfect for playgrounds, schools

Dimensiones de la solera de hormigón del ejemplo

Installation.

Secure to the concrete slab using expansion bolts or threaded rod and epoxy. Finish with compacted surface material, either continuous rubber or tiles.

Maintenance.

-Inspection: All fastenings, screws, and bolts should be regularly checked and, if needed, tightened or adjusted. Record the date for tracking purposes.

Inspections.

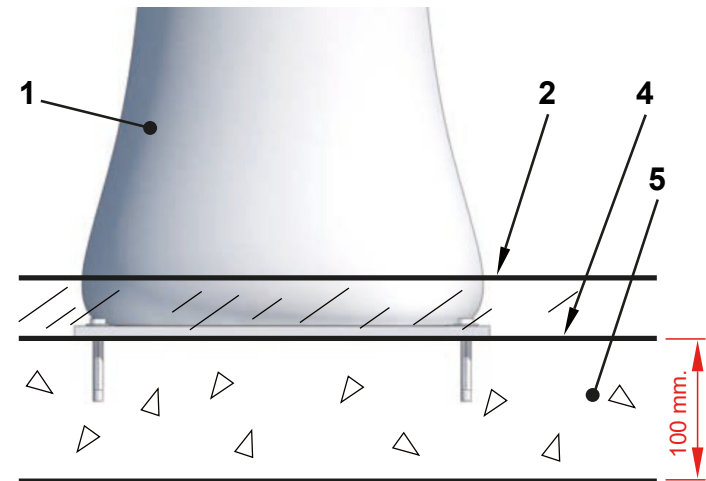

Routine visual inspection. This involves visually and functionally checking to ensure there's no damage from vandalism.

2. Functional inspection. This check should be performed every 1

a 3 months, focusing especially on components labeled "sealed for life" and any equipment that relies on a post for stability.

Annual inspection. A full check of the entire structure will be performed to ensure compliance with all standards and confirm no changes have been made.
