SERIE ANIMALS SERIES

This playground equipment is designed to give kids a fun and active outdoor experience, encouraging their physical development as they play. Shaped like a bull, children can climb on and rock back and forth, helping them improve balance and coordination in an engaging way.

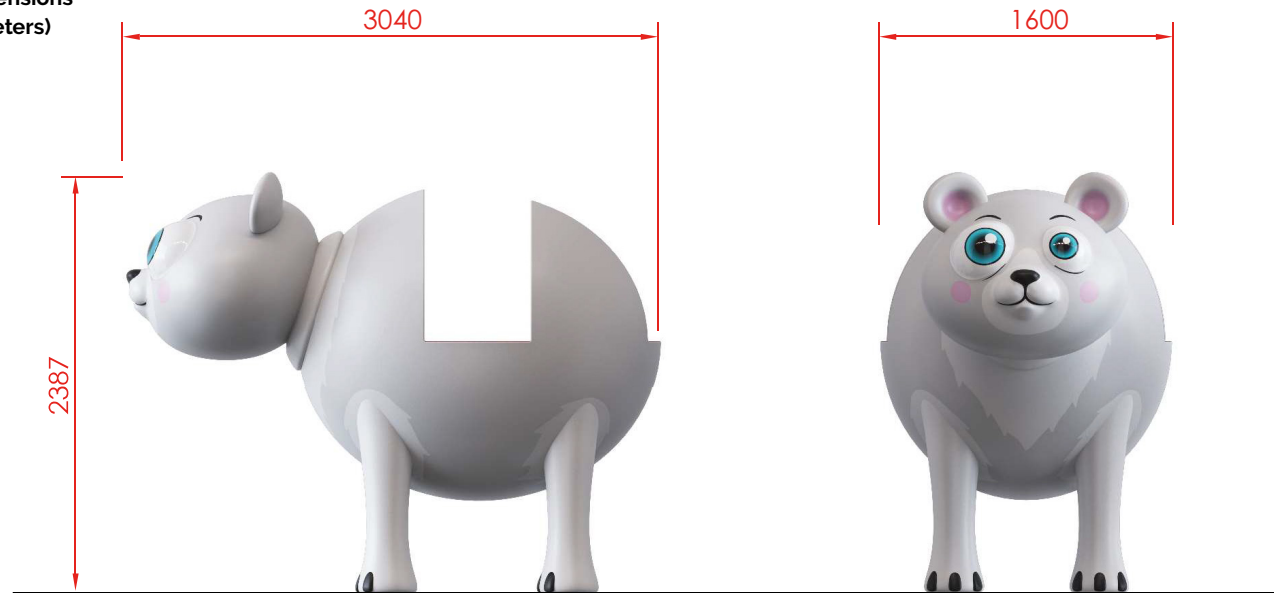

This playground set is built from sturdy, safe materials like galvanized steel and high-quality fiberglass, ensuring it's durable and secure for children. Rounded edges reduce the risk of injury, while its bright and appealing design grabs kids' attention, making playtime even more exciting.

The playground equipment is a fantastic choice to get kids moving and active, making exercise fun and natural. It builds strength, agility, and endurance, allowing children to develop motor skills while having a great time. This type of playset is perfect for playgrounds, schools, or recreation areas, giving kids the chance to play together outdoors.

Safety area: 33.83 m²

Installation

Secure to the concrete slab using expansion bolts or threaded rods with epoxy. Finish the surface with compacted material, either seamless rubber or tiles.

Maintenance.

-Inspection: Regularly check all fasteners, screws, and bolts. Tighten or adjust as needed and record the date for maintenance tracking.

Inspections.

1. Routine visual inspection: Every 3 months, carry out a visual and functional check to ensure there's no damage from misuse or vandalism.
2. Functional inspection: Perform this inspection every 1 to 3 months, paying special attention to 'lifetime sealed' components and equipment whose stability relies on a post.
3. Annual inspection: Conduct a thorough review of the entire structure to confirm compliance with standards and ensure no changes have been made.
