SERIE ANiMALS SERIES

The KP4010 El Toro playground equipment is expertly crafted to give kids a lively, engaging outdoor play experience, supporting their physical growth as they enjoy the fresh air. Shaped like a bull, it invites children to climb on and rock, helping them build balance and motor coordination in a playful way.

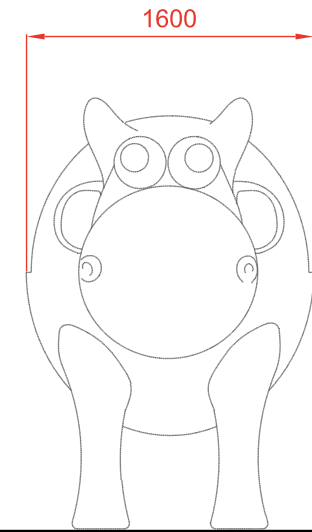

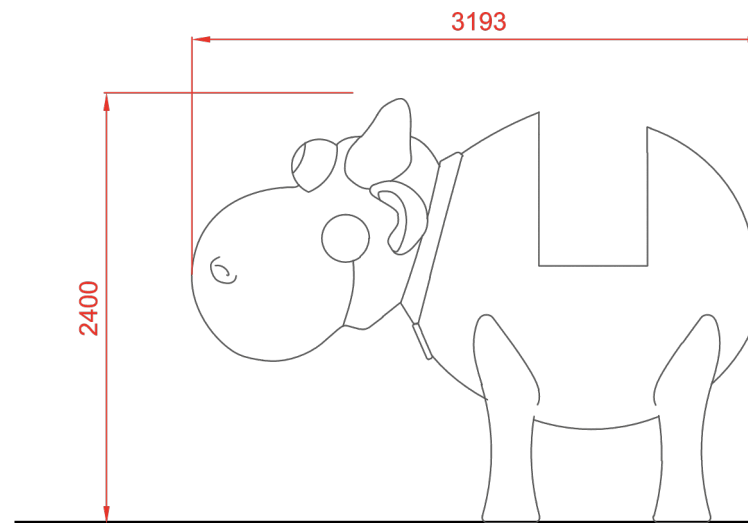

This play structure is made from tough, safe materials like galvanized steel and high-quality fiberglass, ensuring long-lasting durability and child safety. Rounded edges further reduce the risk of injury. Its vibrant, eye-catching design draws kids in, making playtime even more exciting.

The **Toro** is a fantastic choice to encourage kids to be active, promoting exercise in a natural and fun way. It helps build strength, agility, and endurance, allowing children to develop motor skills while having a great time. Perfect for playgrounds, schools, or recreation areas, this equipment lets kids connect with friends as they enjoy outdoor play.

Detalle del anclaje

Installation.

Secure to a concrete base using metric 10 expansion anchors. Finish with a compacted surface, either poured rubber or rubber tiles.

Maintenance.

-Inspection: Check all fastenings, screws, and bolts regularly. Tighten and adjust as needed and record the date for tracking.

Inspections.

1. Routine visual inspection. Conduct an eye and function check to make sure there's no damage from vandalism.
2. Functional inspection. Perform this every 1 to 3 months, focusing on "sealed for life" parts and equipment where stability depends on a post.
3. Annual inspection. Carry out a thorough review of the entire structure to ensure it meets all standards and hasn't been altered.
