SERIE ANiMALS SERIES

This playground equipment is designed to deliver a lively and engaging experience for kids, encouraging them to be active and develop physically as they play outdoors. Shaped like a bull, children can climb on and sway, helping them enhance their balance and motor coordination in a fun, playful way.

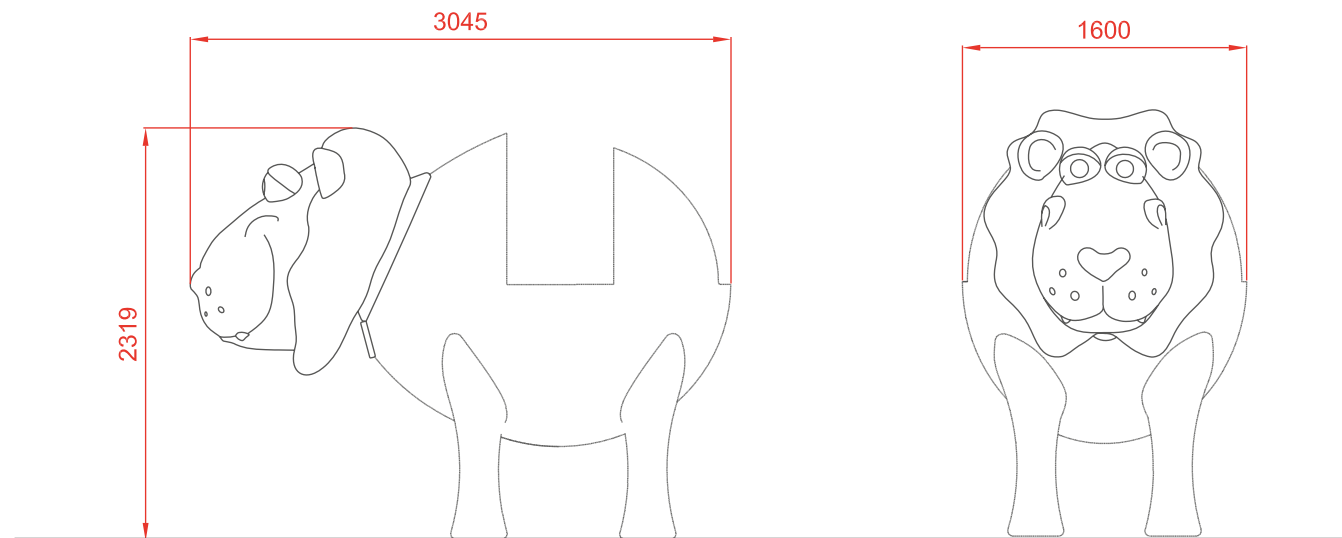

This playground piece is made of sturdy, safe materials like galvanized steel and premium fiberglass, ensuring both durability and the safety of children. Rounded edges are included to minimize any risk of injury. Its vibrant, eye-catching design instantly draws kids in, making playtime even more exciting.

The playground equipment is an outstanding choice for sparking physical activity in children, making exercise enjoyable and natural. It boosts strength, agility, and endurance while helping kids develop motor skills as they have fun together. This type of play equipment is perfect for playgrounds, schools, or recreational areas, allowing children to interact and make the most of their time outside.

Detalle del anclaje

Installation.

Secured to the concrete base using expansion anchors or threaded rods with epoxy.
Finished with a compacted material surface, either poured rubber or tiles.

Maintenance.

Inspection: All fastenings, screws, and bolts must be checked regularly and, if needed, tightened and adjusted. Record each date for tracking.

Inspections.

Routine visual inspection. Perform a visual and functional check to ensure there's no damage from vandalism.

Functional inspection. This check should be carried out every 1 to 3 months, with special attention given to components labeled "sealed for life" and equipment whose stability relies on a post.

Annual inspection. Conduct a thorough review of the entire assembly to confirm compliance with standards and ensure no changes have been made.
