SERIE ANiMALS SERIES

The playground equipment is designed to give kids a fun and active experience, encouraging their physical development while they play outdoors. Shaped like a bull, children can climb on and rock back and forth, helping them boost their balance and motor coordination in a playful way.

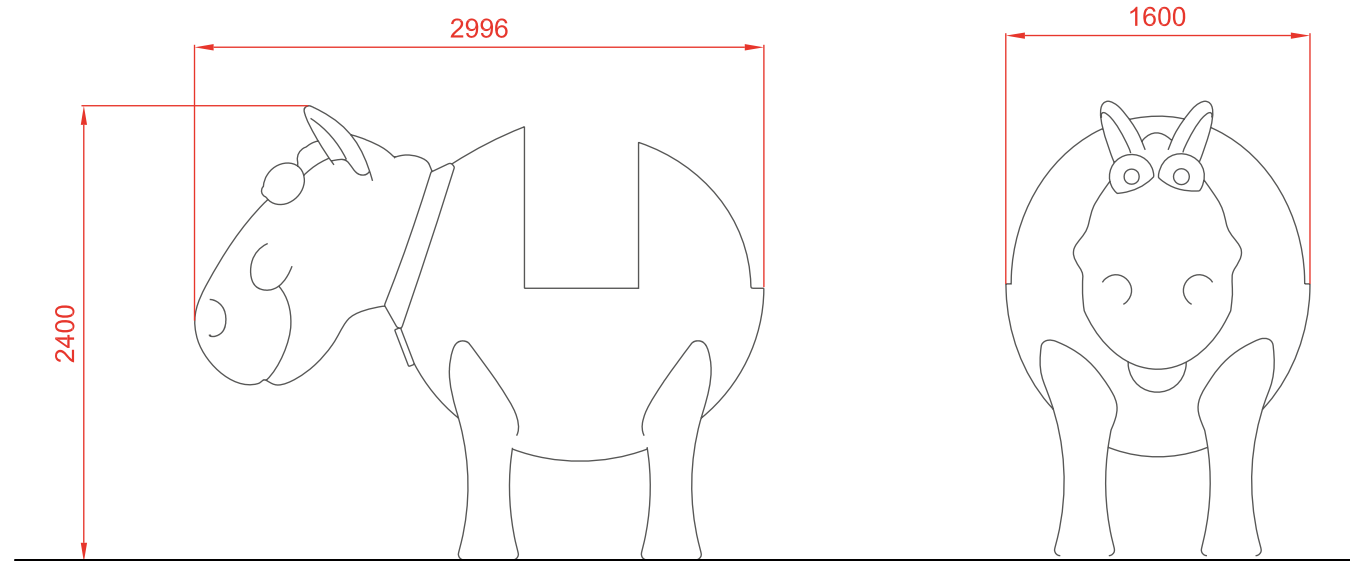

This play equipment is made from strong, safe materials like galvanized steel and high-quality fiberglass, ensuring durability and keeping children safe. Rounded edges help prevent injuries, and its bright, eye-catching design makes it even more exciting for kids.

This playground equipment is a great choice for encouraging kids to be active, making exercise fun and natural. It helps build strength, agility, and endurance, letting children develop motor skills while they enjoy themselves. Perfect for playgrounds and schools.

Safety area: 33.46 m² (with sample elements)

Detalle del anclaje

Installation.

Secure to concrete base using expansion anchors or threaded rod with epoxy. Finish with a compacted surface layer, either seamless rubber or rubber tiles.

Maintenance.

-Inspection: All fastenings, bolts, and screws should be checked regularly. If needed, tighten and adjust them, and record the date for tracking.

Inspections.

1. Routine visual inspection. Conduct a visual and functional check to make sure there's no damage from vandalism.
2. Functional inspection. Perform this inspection every 1 to 3 months, with special attention to components labeled "sealed for life" and any equipment where stability relies on a post.
3. Annual inspection. Carry out a thorough check of the entire structure to confirm full compliance with standards and ensure no modifications have been made.
